Day-06 Lecture Notes

> 💡 **Goal - Complete the Mazze with Robot on Reeborg's World Website**

> 📝 **Topic Covered :**
>
> - `Functions` - A block of code that performs a specific task and is only run when called.
>
>   ```
>   # Defining a Function
>   def my_function():
>           # Do This
>           # Then Do this
>           # Finally Do this
>
>
>   my_function() # Call out a function
>   ```
>
> - While Loop - Repeatedly executes a block of code as long as a condition is true
>
>   ```
>   While Something_is_true:
>       # do Something Repeatedly
>   ```

Tip : Use https://reeborg.ca/ to learn Loops.
